Business Reference:**BFS00433**

About the Business:

Engineering Business Specializing in the Milling Industry for sale

This business was founded decades ago and is still headed-up by its Managing Director. Customers are assured of hands-on family involvement in every department striving for superior customer service and personal attention at all times.

The African continent is the main target market for the business maize and flour milling products. Their main products are a large range of gravity mill spouting equipment and machinery that has enabled them to supply mills throughout the country and export into Africa and off the continent as far as the Americas, Far East, etc. Samples of their work have been requested world-wide, with outstanding reports received on the quality.

Their standard stock spouting range is made from 1 to 2mm mild steel (depending on the item), which is then powder coated at their on-site plant keeping prices competitive.

The also do galvanized ducting in straight pipe, square to round, branch, bend pipe (90/45/18/9 degree) rubber damper and weather cowl. The also manufacture Butterfly Valve, False Air, Air Regulator, Cleaning Door, Clamp, Silencer, Hanger Bracket and Cone.

They used to provide laser cutting services mainly in Gauteng including sheet metal fabrication, CNC bending, rolling and/or guillotining of material and powder coating at their on-site plant. This is a major growth opportunity for any buyer as all the equipment and expertise is still available.

They operate from their owned premises which are not for sale as they have several rented out mini-factories in the same facility. The premises can be rented from them or the business can be relocated
