BUSINESS REPORT

Date: **5th November 2026**
Business Reference:**BFS00260**

About the Business:

Purchase a very feasible national bespoke protective services and asset protection business

The security industry in SA has for the last 20 years been in an upward growth trend due to the increase in crime in SA on all community levels including residential/commercial/industrial sectors

Unfortunately this trend will continue due to the economic/geopolitical situation in SA and therefore private security companies will be in demand for many years to come

The owner of these 2 refined and exclusive businesses (sold as one entity), saw the need in this sector, and has for over 15 years, grown his business into a feasible business adding on new technology through the years, and a new owner can add new technology in the future as the security sector expands into new technology

By providing this service, the clientele through the years have experienced peace of mind where this business has blended in harmoniously with the surroundings and as a result of that, their clients are loyal and long term subscribers to the variety of services offered by this business

The 2 businesses at this stage covers all the necessary elements of a fully fledged security company including but not limited to online monitoring via a centralized centre, onsite installations like gates/fences/tracking systems etc

The only reason for selling is that the owner is venturing into a new business and wont have time to manage both businesses

Purchase a very feasible national bespoke protective services and asset protection business
