Business Report

Fully describe the business's activities?

This is a well-established coding and robotics education business that has been operating successfully for more than 10 years. The business provides coding, robotics and digital literacy education to preschool, primary and high school learners through long-standing partnerships with independent schools.

The business delivers coding and robotics programmes directly within participating schools, working closely with each school's timetable and requirements. It provides the curriculum, lesson plans, teaching resources and equipment required to deliver engaging, age-appropriate technology education.

The curriculum covers coding, robotics and computer science concepts using a variety of recognised educational platforms and technologies. In addition to learner programmes, the business also offers curriculum support and teacher training for schools implementing coding and robotics.

The business operates on a recurring monthly revenue model, with established school relationships generating predictable income. The current owner is responsible for managing the business and does not personally teach classes, making it suitable for an owner-manager or an existing education company seeking to expand.

The sale includes the established client relationships, comprehensive curriculum and teaching resources developed over many years, operational systems, branding, and the goodwill associated with the business.

How long has the business been established?

The business was established in the early 2000s with the current owner taking it over in 2015.

Is the business VAT Registered?

No

How many employees?

2

Give a breakdown of staff/ functions?

Both of the employees teach at schools, manage lesson planning and reporting.

How involved is the Owner in running the business?

Curriculum development and overview, financial planning etc
