Business Report

Fully describe the business's activities?

The owners started this business over 20 years ago, and built the business up to one of the leading animal feed businesses in the research and supply of animal feed in SA, supported by 50 competent and experienced staff members

It started small by distributing a range of amino acid complexes, and since then they strive to be at the forefront of animal science and nutrition, with the goal of optimizing animal nutritional status and well being

They use global knowledge , strengthened by local research and expertise to produce animal feed for the future

Each customer unique needs are identified, and they pride themselves in providing accurate information to each client's specific production systems, thereby enabling the clients to optimize their productivity

They are involved with various international exchange programs, and thereby exposing students here in SA to various research studies undertaken in the animal feeding sphere

The owners, as a result of their successful business, were able to purchase the buildings where the business is operated from, as more fully described below

The growth potential for the business lies in the dairy, beef, pork and sheep feed industries

The business is not over reliant on one single supplier or customer which is a plus point when a new buyer continues with the business

The reason for selling is that the owner is at retirement age, but is prepared to assist a new owner with full training- there are internal staff identified that can assist a new owner at management level

How long has the business been established?

Over 20 years

Is the business VAT Registered?

Yes

The EBITDA is calculated at R39,645,582- the calculation of the EBITDA can be explained to a proposed buyer

Selling price

R200 million which includes R212 million in current assets, R72 million in liabilities and the property valued at R27,5 million

When does the current lease end?

The owners own the property which is part of the selling price
